Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 March 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. This Office Action is in response to Amendment filed on March 10, 2004.
2. Claims 1, 6, 7, 10, and 17 have been amended.
3. Claim 3 has been canceled.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1 and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Rasanen (6,445,924).

Regarding claims 1 and 17, Rasanen discloses a method and apparatus for implement handover in a mobile communications system comprising the steps of: a) transmitting a load information of a radio cell from a first radio network controller serving said radio cell to a second radio network controller not serving said radio cell, wherein said load information is transmitted in response to a load request issued by said second radio network controller; (see fig.1, elements BSC, MSC, col.3, lines 20-33, fig.3, step 302 and its description); and b) using said load information in said second radio network controller for deciding on a load status of said radio cell (see fig.1, fig.3, col.3, lines 34-43 and its description).

Regarding claim 2, 9, 18, 25-27, Rasanen further discloses, wherein said load status is used for deciding on an admission of said radio cell for handover of a mobile terminal controlled by the second radio network controller (see fig.1, col.3, lines 44-55 and its description).

Regarding claims 4-8, 10-12, 14-16, 19-23, 28, Rasanen further discloses, wherein said load information is transmitted, when a load level of said radio cell has reached a predetermined load threshold (see fig.2, col.3, line 56-67 and its description).

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 13 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rasanen (6,445,924) in view of Boscovic (6,490,452).

Regarding claims 13 and 24, Rasanen discloses all the subject matters as described in rejected claims 1 and 17, except for mobile radio network is a radio access network of the UMTS. However, Boscovic discloses a group handover in a cellular communications network comprising mobile radio network is a radio access network of the UMTS (see abstract). Thus, it would have been obvious to one having ordinary skill in the art at the time the invention was made to use Boscovic's the radio access network of the UMTS in Rasanen's invention in order to improve capability of operating in a different type of network in the telecommunication systems.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
